PF FLYERS GLIDE

These Italian quilted *tekkies* are classic Reissue Hi-Tops from PF Flyers, gem of the original American sneaker brands. First produced in 1937, and venerated for its original Posture Foundation ‘PF’ insole technology, by the sixties PF Flyers was one of the largest sneaker brands in America. Women could buy dresses made to match their PFs and for men, PF was standard issue in the US Army. The sneakers were renowned for helping you ‘run faster and jump higher’. Now made by New Balance, PF continues to define classic casual style in authentic reissues and evolved silhouettes. And in ‘Pure ‘70s Action’ gold and black, these PFs can razzle up any old pair of faded, tumble-dryer-shrunk jeans and t-shirt when you wanna get down to those dancefloor killers.

ELIZABETH PEYTON: LIVE FOREVER

BY LAURA HOPTMAN, IWONA BLAZWICK, JOHN GIORNO

From her earliest portraits of musicians like Kurt Cobain, Liam Gallagher and Jarvis Cocker to more recent paintings featuring friends and figures from the worlds of art, fashion, cinema and politics, Elizabeth Peyton's body of work presents a chronicle of America at the end of the last century. A painter of modern life, Peyton's small, jewel-like portraits are also intensely empathetic, intimate and even personal. Elizabeth Peyton's *Live Forever* is a retrospective of the artist's major works and a catalogue of the exhibition held under the same title at the New Museum in New York from last October until January this year. It includes a large selection of artworks, photographs and ephemera as well as essays on the artist. Together, her works capture an artistic zeitgeist that reflects the cultural climate of the late-twentieth and early-twenty-first centuries. This beautiful, large hard-covered volume offers a visual biography of the artist and at the same time creates a snapshot of the popular culture of the past decade.
